## Clarification:

I wanted to briefly clarify my statements from the March school board meeting when I gave my update. In the past few years, the elementary has shown some upticks in student enrollment, with the exception of the COVID year when several families chose to homeschool their children. I do recognize that over the past 13 years enrollment has declined overall, my point was that we are starting to hopefully see an upward trend. I would also note that many other valley schools are seeing a similar pattern. I do have documentation, if you are interested, that shows a decrease in San Luis Valley overall population and it breaks it down by county.

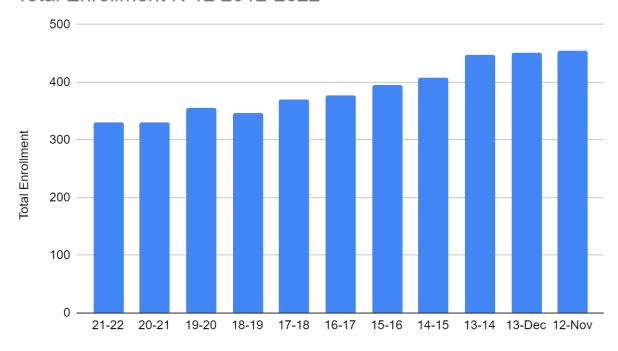

Below is a spreadsheet, I received from the central admin office. These numbers came from our infinite campus system which is our actual enrollment data. These may vary slightly from CDE's October count numbers.

If you have any questions, please feel free to contact me.
